SEVEN REASONS TO AVOID PRE-MARITAL SEX

Culled from 'POLISHED FOR THE PALACE' by Jadesola Adepeju

Pre-marital sex is an act that many young people indulge in that lead to a lot of tales of agony at the end. The question that goes on in my mind when I listen to such tales from young people is 'why did you willingly get involved in this act when you know you ought not to?' but then I realise that several people who indulge into it were actually lured into it. They were **led to believe** that it has great delights to offer them. But really, a closer look at it shows that it is not so. A proper understanding of why pre-marital sex should be a no-go area for you will be of great help to assist you in resisting the pressure that pull people to it.

Here are seven reasons why you should avoid pre-marital sex:

1. DIGNITY

Avoiding premarital sex will help you to maintain personal dignity. A girl who has not allowed any man to see her nakedness usually carries herself about with a sense of honour. If men around her want to be vulgar she has the boldness to confront them that

she is not a wayward person. Also, when people who respect you discover that you have been having premarital sex, they may not trust you again.

2. HEARTBREAK

Sex is good and is meant for married couples to enjoy and by it bring a new-born to the world, who will enjoy the care of both parents. But when this rule is despised or ignored, it leads to confusion, heartbreak and chaos. And to make matters worse an unwanted child may be brought to life.

3. MANUAL

Sex is like an explosive which must be used with the manufacturer's manual. God is the manufacturer of sex and He demands that it be operated within the confines of marriage. If we disobey this rule, then troubles like sexually transmitted disease, abortion and other vices creep in.

4. OCCULT?

Sex has been used many times by people in the occult to initiate new members. Very strong spiritual covenants are made through illicit sex as well as through blood covenants. A member of the opposite sex who is in the occult may have sex with you for occult purposes and also initiate you without your knowledge.

5. HURTS

A lady involved in premarital sex brings a lot of hurt to her loved ones, most especially her parents and siblings when they eventually discover what she has been doing. The heartache is unbearable for most parents who had trusted her. Is it worth it?

6. DISTRUST

Premarital sex lays the foundation for an unstable marriage. If you cannot resist sex now, the likelihood that you will not resist extramarital sex is high because temptations will not cease after you marry. Also some men who married women who were not virgins tend to have doubts about their fidelity especially when distance separates them. Likewise some women do not fully trust their spouses who defiled them before marriage.

COMPROMISE

Sex before marriage often leads to compromise marriage. This is where the woman is no longer really interested in marrying the guy but she feels it is too late to back out. She may feel that the only way to keep her dignity is to marry him.
